**Security Committee**

SECOM-D-242

12 July 1982

NOTE FOR: Director, Office of Community Coordination, ICS

FROM:

  
Chairman

25X1

SUBJECT: Capitol Hill ACM Study

1. Attached is the Capitol Hill Audio Countermeasures report, which the DCI has approved. There are two action items stemming from this approval:

a. Briefing of NFIB on the ACM problem and the proposed short term actions to alleviate the existing conditions.

b. Delivery of the DCI's letters to the Chairmen of the Senate and House Intelligence Committees, and the Chairmen of the Senate and House Appropriations Committees.

2. Steps have been taken to provide interim assistance to the Congress by having CIA furnish equipment and the US Army furnish personnel to assist the Capitol Hill Police with their audio countermeasures program until they have acquired appropriate equipment and training. DoD already has asked that steps be taken to arrange for working space for the Army team. Perhaps Mr. Hutchings could begin preliminary inquiries leading to the acquisition of space.
